computer engineering student with a passion for technology and innovation. Possessing a programming languages, coupled with experience in software development projects. Continuous learning and staying updated with the latest advancements in the field. Proven ability to adapt to new challenges and collaborate effectively in a team environment.

WORK EXPERIENCE

- **Art and Artist Portal Design**

College Project - 2023

When designing the UI for an art and artist portal, prioritize simplicity, elegance, and functionality to create an engaging and user-friendly experience for visitors.

- **Hotel Management System**

College Project - 2022

In this project, I am using HTML , CSS , Javascript and mysql . also it's team project. also This could include technical challenges, design constraints, or timeline pressures.

- **Spotify Clone**

It is a fantastic way to demonstrate your skills in web development, particularly in frontend and backend technologies, as well as database management. it replicates key features of the popular music streaming service.

- **Notes Reminder**

College Project - 2022

In this project, Introduce the project as a Notes Reminder app developed using Kotlin for the Android platform. Highlight its purpose of helping users organize their tasks and set reminders for important notes.
